Deliverable D4.4

Report on fuel formulation for engine test - diesel part

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 640720

Editorial	
Deliverable N°:	D4.4
Title	Report on fuel formulation for engine test
Workpackage:	WP4
Responsible beneficiary:	Neste
Authors:	Markku Kuronen
Contributors:	Neste
Version:	draft
Due date of deliverable:	31/08/2018
Version date:	30/08/2018
Contact:	Markku.kuronen@neste.com
Dissemination level:	CO-Confidential
Nature:	Report
Review status	WP-leader accepted <DD/MM/YYYY>
	SC accepted <DD/MM/YYYY>
	Coordinator submitted <DD/MM/YYYY>

Publishable Summary

Test fuels for diesel engines were prepared by using three different fuel components. Effect of the blending was analysed according to EN 590.
